Intermediate

## SUMMARY

I'm a Junior Frontend Developer and I'm looking for my first interesting job for joint development. I intend to develop innovative technologies and deliver value to people. I want to work in a team of passionate people from whom I can learn and solve a variety of tasks

## PROJECTS

### Filmoteka

Team project about searching movies and adding favorite movies to a client personal library. Using pure JS, npm-packages and SCSS. My work is rendered the movie gallery, scroll up button, notification, hbs-templates

### HellEN

Team project for an English language school. It was the first team project. Using HTML, SCSS, pure JS. My work is "Our program" section, collect and optimize images, scroll up button

### Wallet

Team project for controlling expenses and income finance. Using HTML, CSS, React, React Router, Redux Toolkit, Node.js, Express, MongoDB, Mongoose. My work is part of section statistics and currency rates

### PhoneBook

My own project for saving contacts with the ability to filter and delete. Using HTML, CSS, React, React Router, Node.js, MongoDB, npm-packages, REST API
